

Novel approach to analysis of melting of ionic and covalent crystals. / Z. Gogua, M. Chikhladze, O. Ketiladze. / Nano Studies. – 2015. – # 12. – pp. 189-196. – geo.

There are proposed ways of resolving conflicting discourse, which exists in consideration of the temperature-process of melting of covalent crystals. Also, a calculation of the melting point of ionic crystals is provided in the frames of a novel approach. Fig. 3, Tab. 1, Ref. 4.
